Q-LITE CONCRETE MASONRY UNITS

 [Bookmark](#)  [Print](#)

from Big River Industries, Inc.

Q-LITE from Big River Industries, Inc. is a lightweight concrete masonry unit made with Big River's expanded clay lightweight aggregate. Lightweight aggregate can be used in several ways to make concrete lighter and safer while also boosting project productivity and assisting in model building code acceptance. Q-LITE is energy efficiency for LEED credit consideration. Q-LITE concrete masonry units are the lowest density blended aggregate units available and combine the benefits of blending multiple aggregates with a U.L.-certified fire rating.
